an Arbor Day event, and attending a four-hour training session. Allison will keep the board posted of any further requirements.

A new mission statement will be needed to encompass the new beautification aspect of the board.

The city is updating the street pole banners within the coming months to further help beautify the city.

Community Tree Priority Survey Results- Results for the survey from 40 respondents were provided to the board. The results showed that trees are a positive conversation for all residents that responded to the survey. There is a lot of desire for continued greenspace development. The responses give the board a good path forward for future initiatives. The survey will remain up for a few more weeks and continue to be marketed to receive more responses.

Educational Materials for Homeowners-

- Website Statistics- Website Google Analytics were provided to the tree board.
- Additional Information to be added- Chris is going to send Denise an email of possible spots to add additional links to the tree care pages. Suggestion was also made to add information to the website about how to properly top trees and when the correct timing would be to do it.

Tree Sustainability Plan- Chris suggested coming up with a plan to replace trees within the city that are on the median and along roadways that have died or been damaged. Suggested having a survey of the major thoroughfares to ensure that as trees come down there is a plan to replace them with something else. A plan would also need to be put into place to address the irrigation needs of new trees as their root system takes hold.

Comment from Citizens- None

Comments from Board Members & Staff- Introduction to Chloe Tinnin, intern for the Parks and Rec department.

Adjournment- The meeting was adjourned at 10:28am.
