Consider implementation of improvements recommended by the Hollywood, Old Two Mile Pike Drainage Study. The City Manager stated that the solution to the drainage problem in the area would also help the sewer backup problem on Two Mile Pike by reducing the infiltration and inflow into the sewer lines during heavy rains. Charlie Lowe, an engineer with Ragan-Smith Associates, explained the plan to divert the water through a new channel. Residents of the area asked about the sewer problem. The City Manager said that plans for that project should be complete by next week. Motion by Garrett to approve the engineering for construction of phases 1 and 2 of the Hollywood Street/Old Two Mile Pike drainage improvement plan. Seconded by Driver. Passed 3-0.

The Mayor appointed Ellie Mead to the vacancy on the Board of Zoning Appeals & Sign Appeals with the consent of the commission.
